SUMMARY

Frontend Developer skilled in building **responsive, scalable, and user-friendly web applications** using **React, Next.js, JavaScript, HTML, and CSS**. Experienced in **component-based architecture, RESTful API integration, state management, and client-side routing**. Passionate about writing **clean, maintainable code** and delivering **high-performance UI/UX experiences**.

EDUCATION

BSc in Computer Science & Engineering

Jamalpur Science And Technology University

CGPA : 3.65 out of 4.00

SKILLS

Front End Development

HTML, CSS, JavaScript, React, NextJs

Database

MySQL, PostgreSQL, MongoDB

Back End Development

Node.Js, Express.Js

Tools

Git, GitHub, Postman

PROJECTS

Contact App

Developed a **React-based CRUD application** with **REST API integration**, reusable components, and responsive UI. Implemented dynamic data handling and optimized user interaction for smooth performance across devices.

Auth App

Built a **full-stack MERN authentication system** with **secure login/register functionality, client-side routing**, and dynamic data rendering. Deployed on Netlify with responsive and modern UI design.

Fast Nurisment

Developed a **responsive React single-page application (SPA)** using **component-based architecture, state management, and API integration**. Implemented client-side routing and deployed the application on Netlify for production use.
